

PLP2000 Plants, Plagues, and People: Modules and Schedule for Spring, 2019

Due Date*	#	Topic
Jan 11	1	Orientation
	2	Geologic time and the Human Speck
	3	Organic molecules: life's building blocks
Jan 18	4	Origins of life
	5	Reading DNA, Writing Proteins
	6	Mistakes in the code (Good news? Bad news? Who knows?)
	7	Mutations and Populations
	D1	Discussion #1 entries due, 11:59 PM
Jan 25		Jan. 21: MLK Holiday
	8	Prokaryotes: hot, fast, cheap and easy
	9	Eukaryotes: cells get organized & the invention of sex
	10	The Mechanics of Sex (no, not THAT kind of mechanics...)
Feb 01	11	Energy production and transfer: making and breaking bonds
	12	Energy storage and use: food chains to fossil fuels
	13	Sea of Life: Cells get together and make critters
	14	Sea of Life: Diversity of Life
	D2	Discussion #2 entries due, 11:59 PM
Feb 08	RT1	Review Test #1 due by 8:00 PM
Feb 08	15	Land Invasion, I: Plants
	16	Land Invasion, II: Fungi and Stramenopiles
Feb 15	17	Land Invasion, III: Animals, the Arthropods
	18	Land Invasion, IV: Animals, the Vertebrates
	19	Land Invasion, V: The Cheaters, part 1 (protozoans and flatworms)
	20	Land Invasion, V: The Cheaters, part 2 (roundworms of plants & people)
	D3	Discussion #3 entries due, 11:59 PM
Feb 22	21	I'm an Amniote, and I'm ok
	22	Mammals: from belly buttons to nipples
	23	The Precarious Rise of the Mammals
	24	Primate Primer
	25	From Primates to People (Lucy's got a big ol' butt)
Mar 01	26	Mechanisms of speciation and extinction
	27	Case Studies in Extinctions
Mar 01	RT2	Review Test #2 due by 8:00 PM
	D4	Discussion #4 entries due, 11:59 PM
-	-	Mar 04 – 08 Spring Break
Mar 15	28	Hunting and Gathering to the Advent of Agriculture
	29	Early Agriculture and Domestications
	30	Human Populations: Carrying Capacities and Malthusian Limits
	31	The Rise (and fall and rise and fall ...) of Civilization: Sumerian

	32	The Rise (and fall and rise and fall ...) of Civilization: Harrapan
	33	The Rise (and fall and rise and fall ...) of Civilization: Egyptian
Mar 22	34	Meanwhile, on other parts of the planet... Asia
	35	Peopling and Civilizations of the Americas
	36	Back in the Fertile Crescent: from States to Empires
	37	Greeks and Science
	D5	Discussion #5 entries due, 11:59 PM
Mar 29	38	Roman Rise, and Roman Science
	39	The Decline and Fall of Rome: Logistics & Disease
	40	Civilization and Human Diseases
	41	Density-dependent Diseases: 8 diseases that love a crowd
	42	Civilization and Plant Diseases: Infecting your food
Apr 05	43	The Middle Ages: Shifting Climates, Shifting People
	44	Black Death
Apr 05	RT3	Review Test #3 due by 8:00 PM
	D6	Discussion #6 entries due, 11:59 PM
Apr 12	45	The Columbian Exchange I: Race for Resources
	46	The Columbian Exchange II: The Unintended Exchanges
	47	Fuel for a Renaissance: Imperialism & Slavery
	48	Renaissance Culture & Science
Apr 19	49	Industrial Revolution I: Power and Invention
	50	Industrial Revolution II: Biology and Medicine
	51	Industrial Revolution II: Culture and Consequences
	52	Global Economics and Resource Conflicts in the Modern Era
	53	Green Revolution
	D7	Discussion #7 entries due, 11:59 PM
Apr 24	54	Populations, Demands, and Resource Limitations
	55	Energy Junkies
	56	Tying it All Together
Apr 25-26	-	Reading Days (No Classes, Nothing Due)
Apr 29	RT4	Review Test #4 due by 8:00 PM

*This schedule is given to help you stay on track with completing the modules. You are welcome to move through the course at a faster pace, but you must take the module quizzes for each week by 8:00 pm on the posted deadline (Friday of every week, except for the final set), complete the review tests before 8:00 pm on the scheduled test dates, and complete your discussion entries by 11:59 p.m. on the posted deadlines (every other week). **Quizzes and tests** will remain open for two weeks beyond the posted deadline, but **late submissions will receive a point deduction of 10% per day**. Beyond the 10th day, quizzes may be completed in order to progress through the modules, but they will receive no credit. **Late discussion entries will not be accepted.**

PLP 2000 Syllabus: Plants, Plagues, and People (Online)
Spring, 2019

COURSE: PLP 2000, Section 12CF, 3 credits. This course may be used to fulfill either a Biological Sciences (B) or Humanities (H) General Education Requirement.

e-LEARNING WEBSITE: <https://lss.at.ufl.edu> (in Canvas)

MEETING TIMES: This course is semi-synchronous. Deadlines are set for completion of module sets, discussions, and review tests, but they may be completed in advance of the recommended schedule.

TEXTS: There is no required text for the online version of this course. All content is included within the course modules.

INSTRUCTOR: Dr. Brantlee Spakes Richter

OFFICE: 2519 Fifield Hall

OFFICE HOURS: Drop-in office hours Thursdays 3:00-4:30, or by appointment.

ONLINE HOURS: Live-chat arranged by appointment.

PHONE: 352-273-2014

EMAIL: Please use the email system within Canvas.

TEACHING ASSISTANTS: Andrew Shirley, Caroline Land

CONTACTING THE INSTRUCTOR:

Questions about class materials or content: Please use the discussion boards in Canvas for all questions about class mechanics or content. If you have a question about the class or subject material, others probably share the same question, and posting it to the discussion boards allows everyone to see the question and answer, just as if you had raised your hand in class and asked the question. If you use email to ask a general class related question, you will be asked to post your question on the appropriate board, and it will be answered there. Please do not use the discussion boards for questions about specific quiz questions on a quiz that is still open, as others may not have taken the quiz yet and would have an unfair advantage by seeing the questions ahead of time.

Individual questions, problems, or appointments: Please use the email function in Canvas to communicate with the instructor and TAs during the semester, rather than regular university email, except in extreme emergencies. Email and phone messages delivered on weekdays (M-F) will generally receive a reply within two business days. Messages may not be checked between 5:00 pm Friday and 8:00 am Monday; messages received over the weekend will generally receive a response on Monday. If I plan to be out of the office or otherwise unavailable, I will post an announcement on the class website.

Technical support: If you experience difficulties with accessing components of the site, including lectures, quizzes or tests, **contact the UF help desk** immediately. If they are not able to resolve your problem, contact the instructor with your help desk ticket number and a description of the problem and steps taken to resolve it. Extensions for due dates will be granted for documented technical problems, as needed.

COURSE DESCRIPTION: **Plants, Plagues, and People** is a course in biohistory. We cover biology, from the nuts and bolts to the diversity of life, and we look at the ways in which organisms interact with one another, and how those interactions influence and constrain human activities. Course themes include environmental pressures, resource limitations, and diseases, and the roles that these factors play in the rise and fall of human civilizations.

ABOUT THE ONLINE COURSE: This is an asynchronous distance education (DE) adaptation of the “Plants, Plagues and People” course; it is offered via the University of Florida E-learning system (Canvas) at <http://elearning.ufl.edu/>. The class materials are delivered via a combination of video lectures, narrated interactive slides, and online interactive activities. The lectures and supplementary materials are organized into modules that are available online through the University of Florida E-learning system for the class. In accordance with the copyright law of the United States (Title 17, United States Code) none of the materials in the class can be "used for any purpose other than private study, scholarship, or research."

LEARNING OBJECTIVES: The overall goal of this course is for students to gain knowledge of the major events in human evolution and history, as well as a basic understanding of the relationships between humans and their food, biological resources, and pathogens. By the end of this course, you should be able to:

- describe the progression of life forms on planet Earth, and explain how environmental pressures affect populations of living organisms;
- explain the value of plants to human beings, and describe the impacts that the development of agriculture and the use of fossil fuels have had on human populations and societies;
- discuss the effects of biological resource limitations on major historical events and cultural trends;
- distinguish between density-independent and crowd diseases, and describe how various diseases have affected humans and their civilizations;
- give examples of human activities that have led to increases in human, animal, and plant diseases.

PREREQUISITES: There are no course prerequisites for PLP2000. For the online version of this class, however, it will be assumed that you have consistent access to the internet and basic computer skills. You must be able to:

- access the course content regularly,
- navigate the course materials using the Canvas software interface,
- correspond via the email and chat functions within the class website,
- access other online content, as assigned.

For UF’s student computing requirements, see: <https://training.helpdesk.ufl.edu/computing.shtml>. For help with Canvas, go to: <https://lss.at.ufl.edu/help.shtml>, or use the “help” link in the left-hand menu of your workspace window.

LEARNING MODULES: The course content for this class is divided into 56 learning modules, which are located in the **Home page** of the Canvas interface. Each module includes a presentation of the subject material (video lecture or narrated slides) and supplemental materials, such as non-graded interactive quizzes or exercises, additional readings, short videos, podcasts, etc. Every module also has an associated graded quiz, which you can access directly from the module or by going through the “Quizzes” link in the course toolbox. After you complete the module, you must find and take the associated quiz before the weekly quiz deadline. You do not, however, have to take the quiz

immediately after viewing the module. You may find it more beneficial to take time to look back over your notes and study the material further before taking the quiz.

GRADES: There will be a quiz for each module, 4 review tests, and 7 discussion board assignments. The grading scale is built on a point-based system, with “extra credit” points built in: 800 points is considered a 100% equivalent, but there are 840 actual points available. This allows you to make up for missed quiz points by doing additional discussion activities, or to skip two discussions if you are doing well on the module quizzes.

Quiz Scores (56 quizzes at 2-14 points each):	300 points
Review test 1:	100 points
Review test 2:	100 points
Review test 3:	100 points
Review test 4:	100 points
Discussions (5 at 20 points each):	100 points
<hr/>	
Total points	800 points

Quizzes will be taken after each corresponding module, and will typically consist of 2 or 3 questions (sometimes more) at 2 points each. Questions will be drawn randomly from a question pool, so you will not receive exactly the same quiz questions as someone else taking the online course. Make sure that you have viewed the module and taken notes, and that you are prepared for the quiz; once you start a quiz, you will have limited time to complete it (total time is set for 90 seconds per question), and you may not exit and return later. Quiz deadlines are set according the weekly module schedule. All module quizzes will be available starting on the first day of class, but must be completed prior to the weekly scheduled deadlines (8:00 PM, each Friday).

Review tests will be given quarterly, and are non-cumulative (each one covers one quarter of the course). **Review tests must be taken on or before the scheduled test date.** Each test will be due at 8:00 pm on the scheduled test deadline date. Tests will consist of 40 questions at 2.5 points each. Questions are drawn mostly from the same banks as the module quizzes, with a few additional questions that combine information from several related modules. It is recommended that you review your quiz results prior to taking the review test, and ask questions as needed to get clarity on any questions that you missed. Once you begin a test, you will have 60 minutes to complete it. You may not leave the test and return later. The test will end when you hit the “submit” button, or will close automatically exactly 60 minutes after you begin. The grade will be calculated automatically, and you will be able to see your score in your Canvas grade book within a few minutes of completion. The review tests will be proctored via the **Honorlock** system. You will be allowed to use your own single sheet of hand-written notes, but the system will ensure that you are taking the test yourself, and using nothing beyond your own notes (e.g., internet searches, electronic documents, published notes, etc.).

Discussions: There are seven (7) discussion opportunities available, and each student is expected to participate in at least **five (5)** of those discussions. Additional points may be earned by participating in additional discussions. To participate, follow the link from the module or find the topic under “Discussions.” Each discussion activity will require you to complete a different task and post the results on your discussion board, so that others may view and comment on your contribution. Please read ahead and don’t wait until the last minute to start a discussion post; each one will require a little

outside exploration prior to submission, and there is no late credit for discussions. In order to receive full credit, your posts must be unique, well-reasoned, coherent, and supported by appropriate sources. Please remember that this is a class discussion, not a text message. Use complete sentences, check your grammar and spelling, and show respect for your fellow students, just as you would if they were sitting next to you in a classroom. Please also note that on any discussion board, a non-unique post (repeat of another post already submitted) will only receive half credit, and a plagiarized post will receive no credit.

Grade calculation: Final course grades will be determined on the following scale, based upon 800 possible points earned. You will be able to keep track of your points throughout the semester in your Canvas grade book. If you find that you are not on track to achieve your desired grade, please make an appointment or drop in during office hours for additional help. Do not wait until the last set of modules to ask for help! And definitely don't wait until the semester is over, and then ask for your final grade to be "adjusted," or request that a special extra credit assignment be created for you. We are more than happy to help you individually with the course material, but you must earn your own points.

Letter Grade	Percentage	Points
A	92-100	736-800+
A-	90-91.99	720-735
B+	88-89.99	704-719
B	82-87.99	656-703
B-	80-81.99	640-655
C+	78-79.99	624-639
C	72-77.99	576-623
C-	70-71.99	560-575
D+	68-69.99	544-559
D	62-67.99	496-543
D-	60-61.99	480-495
E	0-57.99	000-479

Satisfactory-Unsatisfactory Grade Option: if the class is being taken as a "pass/fail" (S-U) credit, a satisfactory grade will be earned with the equivalent of a "C-" grade or better (560-800 points).

Extra Credit: There are more than 20 extra credit points built in to the course. These extra points allow you the flexibility to "make up" missed quiz or test points by doing additional discussion activities, or vice-versa. There will, however, be no "individual" extra credit opportunities offered; the only extra credit offered will be from assignments available to the entire class.

ATTENDANCE & PARTICIPATION IN THE ONLINE ENVIRONMENT:

This class is fully online and semi-synchronous. That means that students are responsible for scheduling their own time to complete the modules, allowing enough time to ask questions and receive answers before the deadlines for graded quizzes and tests. **Failing to log in to an online class and complete the weekly assignments is equivalent to skipping a live class.** Just as "I forgot to attend class all week" would not constitute an excused absence for a live class, it is equally inexcusable in the online environment. Waiting until the last day is also not recommended; if you wait until the day of a quiz or test deadline and attempt to view all the modules and take all the quizzes in rapid succession, your likelihood of earning a passing grade is poor; most humans are not able to absorb, process, and retain information very well in such a situation, and it leaves no time to get clarification on anything that you did not immediately understand. While we will strive to keep the online format as interactive

as possible, there will not be an instructor immediately accessible 24 hours a day, so there will be a delay between the time that you post a question and the time that we can answer it.

Missed Deadlines: If you have plans to be out of town, or have other conflicts with a scheduled due date, you will be expected to complete the assignments **prior to** the scheduled date. Make-up tests or deadline extensions will not be given after the due date for reasons of personal scheduling conflicts (e.g., family vacations, club activities, other classwork, etc.). If you have waited until the scheduled deadline, and you have an emergency that will prevent you from taking a test or quiz, you must contact the instructor as soon as possible. **Requests for an excused absence will only be accepted within one week of the scheduled deadline** (except in cases of physical or mental incapacitation, in which case petitions will be accepted within one week of the documented return date). You may be asked to provide documentation of the emergency or illness (police report of a car wreck, doctor's note for illness or injury). A missed test or quiz must be made up prior to the next test or quiz deadline. If you miss a posted deadline without an excused absence, the test or quiz will still be open for two weeks after the deadline; however, your score will reflect a 10% deduction for each day beyond the posted deadline.

Disability Accommodations are made as soon as possible upon receipt of an accommodation letter from the Disability Resource Center. If you are submitting a letter, it is your responsibility to communicate which specific accommodations you will need in order to fully participate in the course, as some allowed accommodations may not be needed in the online environment and others may need to be modified for delivery within the course platform. If you have an accommodation allowing "additional time to complete out-of-class assignments," that does not constitute a blanket excuse for missing course deadlines. If you need extra time on a particular week due to your medical condition, you must still contact the instructor within one week of the deadline to arrange for an excused absence or alternate deadline. We are more than happy to provide accommodations so that every student can get the most out of this course, but we rely on you to communicate your needs in a timely manner so that we may meet them fairly and appropriately.

Academic Integrity standards will be upheld vigilantly at all times in this class. Upon registering at the University of Florida, you signed the following statement: "I understand that the University of Florida expects its students to be honest in all their academic work. I agree to adhere to this commitment to academic honesty and understand that my failure to comply with this commitment may result in disciplinary action up to and including expulsion from the University." On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment." You will be expected to keep these commitments in every aspect of your participation in this class.

It has been assumed in the development of this course that students will have access to their notes while taking the weekly online module quizzes. You are encouraged to take good notes, and use them effectively, but you are expected to use only your own notes and understanding during assessments, and you are expected to submit your own work on discussion boards. A plagiarized discussion post will receive an automatic zero score and a warning; if you submit a second plagiarized post, you will be referred to the Dean of Students Office for violation of the Honor Code. The quarterly Review Tests in this course are proctored, using an online proctoring service. During tests, you will be allowed a single sheet (front and back) of your own hand-written notes, but no other resources. You may not use electronic notes, purchased notes, or other students' notes during exams; you will be asked to show

your single sheet of notes to the proctor prior to taking the exam. If two or more students present the same page of notes to the proctor, they will each be referred to the Dean of Students Office for violation of the Honor Code, and their exam score will be divided by the number of students sharing the notes.

UNIVERSITY POLICIES AND SERVICES

UF Counseling Services provides resources on campus for students having difficulties which may interfere with their academic performance. Programs are available for general therapy, stress management, anger management, math confidence, career counseling, LGBTQ support, and many other specific needs. Resources available to you include: **1) University Counseling Center**, 301 Peabody Hall, 392-1575; **2) Student Mental Health Center**, 392-1171; **3) Sexual Assault Recovery Services (SARS)**, Student Health Care Center, 392-1161; **4) Career Resource Center**, Reitz Union, 392-1601.

Accommodations are available for students with disabilities. Students requesting accommodations must first register with the Dean of Students Office (through Students with Disabilities Office, Peabody 202, 392-1261). The Dean of Students Office will provide documentation to the student. This documentation must be presented to the instructor when requesting accommodation. For further information, see the Disability Resource Center (www.dso.ufl.edu/OSD/).

Software Use and Copyright: All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

UF Distance Education Student Complaints: Should you have any complaints with your experience in this course, which you are unable to resolve directly with the instructor, please visit <http://www.distance.ufl.edu/student-complaints> to submit a complaint.
